Dr Peres, has explained to you that you will be having an operation in the near future.

I will be your anaesthetist on the day, and would like to optimise the experience for you, so as to minimise anxiety beforehand and alleviate some of the fears as you may have about the anaesthetic and the process on the day.

To facilitate this, may you please access and complete the specific pre-anaesthetic questionnaire that can be found at:

www.anaestheticgroup.com.au/stavrakis

This will take about 10 minutes to complete and will give me the opportunity to care for you during this time.

Faithfully ,

Timothy Stavrakis.
